

DEPARTMENT OF THE NAVY
NAVAL FACILITIES ENGINEERING COMMAND, MID-ATLANTIC
9324 VIRGINIA AVENUE
NORFOLK, VA 23511-3095

J&A ML-16-12
ACQ3
29 February 2016

**JUSTIFICATION AND APPROVAL
FOR USE OF OTHER THAN FULL AND OPEN COMPETITION**

1. Contracting Activity. The requiring agency is the United States Navy; the contracting activity is the Naval Facilities Engineering Command, the contracting office is the Naval Facilities Engineering Command Mid-Atlantic (MIDLANT), Norfolk, VA.

2. Description of the Action Being Approved. NAVFAC MIDLANT proposes to procure mobile glass replacement and repair services in the Hampton Roads Area through other than full and open competition.

3. Description of Supplies/Services. The Contractor shall furnish all labor, supervision, management, materials, supplies, equipment, tools, transportation. All work will be done at the Transportation Department location aboard any of the Naval Facilities located in the Hampton Roads Area. All vehicle glass replacement and repair work shall be completed in accordance with ANZI/AGRSS 002-2002 Automotive Glass Replacement Safety Standards, the Federal Motor Vehicle Safety Standards related to automotive glass, and will meet OEM specifications. The contract type is an Indefinite Delivery/Indefinite Quantity (IDIQ) with a base period of performance from 24 April 2016 through 23 April 2017 and up to four (4), 12-month option periods, not to exceed 60 months. The estimated value of this action is \$1,156,588.19.

4. Statutory Authority Permitting Other Than Full and Open Competition. The statutory authority for this acquisition permitting other than full and open competition is 10 U.S.C. 2304(c)(5), FAR 6.302-5(a)(5) Authorized or required by statute--sole source awards under the HUBZone Act of 1997.

5. Rationale Justifying Use of Cited Statutory Authority. The statutory authority 10 U.S.C. 2304(c)(5) permitting other than full and open competition applies to the proposed procurement as the contracting officer does not have a reasonable expectation that offers would be received from two or more HUBZone small business concerns; the anticipated contract including options will not exceed \$4 million; and, the current contract (N40085-11-D-9805) is not currently being performed by an 8(a) participant.

6. Description of Efforts Made to Solicit Offers from as Many Offerors as Practicable. A sources sought notice was issued on 11 December 2015 on the Navy Electronic Commerce Online (NECO) website. Only the incumbent, Jezzi Corporation, expressed an interest in this requirement. Additional market research was conducted to determine if additional HUBZone business concerns exist under the specified NAICS Code 811122. No other HUBZone firms were revealed. The proposed HUBZone small business concern is intimately familiar with the work to be performed and is currently performing satisfactorily.

7. Determination of Fair and Reasonable Cost. The Contracting Officer will determine that the price is fair and reasonable through negotiations with the contractor and by comparison to the independent government estimate and other historical data.

8. Actions to Remove Barriers to Future Competition. NAVFAC MIDLANT conducted market research as noted herein; however, additional market research will be conducted for any future contracts to determine whether or not competition opportunities exist.

CERTIFICATIONS AND APPROVAL

TECHNICAL/REQUIREMENTS CERTIFICATION

I certify that the facts and representations under my cognizance which are included in this Justification and its supporting acquisition planning documents, except as noted herein, are complete and accurate to the best of my knowledge and belief.

Technical and Requirements Cognizance:

John M. Haynes
Transportation Specialist
